MISCELLANEOUS.

TWENTY YEARS AGO

Physicians sent their throat and lung patients toward the tropics. Now they send them northward—to the mountains—up among the pines. Sufferers from throat and lung troubles experience a wonderful sense of relief in the fragrant atmosphere of a pine country.

Santa Abie

is prepared from Abietine Balsam, obtained from a rare species of pine found only in California and Norway, and from Yerba Santa, better known as Mountain Balm. Soothing, healing and restorative, Santa Abie is a matchless remedy for coughs, colds, croup, asthma, bronchitis and all other diseases of like character. Easy to take, quick in its effects. Every bottle guaranteed.

CHARLES E. CLOUGH,

BUILDER, ARCHITECT
—AND CONTRACTOR—
RENO, NEVADA.

Plans for buildings and estimates of construction. Contracts taken for all kinds of building. Residence near the University. Orders for building and alterations will receive prompt attention.

The Incubation of Crinoline.

If there is one human being that I despise more than another, it is a man mil-liner. Ladies dress is a mystery to me, and my ideas in regard to it are some-what vague. But as newspapers are is-suing an outcry against crinolines I will venture to explain their incubation. They were due to the desire in an ab-normal fit of common sense of women to have a rational costume.

Either the queen or one of the princesses wore, or was said to wear, at Balmoral thick boots coming high up the leg. All loyal women insisted upon following this example and wearing "Balmoral boots." The ladies had no objection to show these boots, and, still being under the influence of common sense, objected to their dresses trailing on the ground when they were out walking. The next step was to have a scarlet petticoat over the flannel and other underclothes.

This scarlet petticoat came about half way down the calf, and over it was worn a skirt which fell to the feet when in-doors, but which when out walking was drawn up by a cord in festoons, coming a little above the scarlet petticoat. To this costume were added stockings of some bright color and a blouse with wide sleeves and a waistband, with over it a zouave sort of jacket. What I con-tend is that the crinoline was not, until exaggeration set in, a cage, but merely one detail in a pretty and practical cos-tume.—London Truth.

Penalty of Being Short on Kisses.

When Jones Greenbaum makes out a check for \$25,000, which sum he pays to-day decided he should pay Miss Irma Heilbron for trifling with her young af-fections, he will not sign it.

While the jury were a little loth to reveal the secrets of their delibera-tions, one of them intimated last night that "the kisses did it." In his loving epistles to Irma "Yours as ever loving Joe" contracted to deliver an almost in-conceivable number of these tokens of affection. He defaulted, and the jury figured out the damages as follows:

One carload kisses (not delivered).....\$1,000
One million kisses (not delivered)..... 750
One lot—25 bushels—kisses (not deliv-ered)..... 250
Several bushels kisses (not delivered)..... 25
Many sweet kisses (not delivered)..... 150
Sundry job lot kisses (not delivered)..... 25
Heartaches..... 500
Disappointment and wrecked hopes..... 500
Total.....\$3,000

When Miss Irma heard the verdict read, she smiled, and when her friends con-gratulated her she smiled again. She said she was happy in the vindication the verdict gave her.—Chicago Tribune.

Foolish Girls and Silly Fathers.

The culpability of the modern father in allowing his daughters to marry with-out any investigation as to the standing or character of the young man in the case received a striking illustration last week. Miss Florence Cushing was a pretty young lady, who graduated from the Rockland high school and afterward had an office in this city, where she did typewriting and copying. On Nov. 15 she was married at the residence of her father, Brainard Cushing, to one F. W. Williams, who represented that he was an agent of the Thompson-Houston Electric company. He took his bride to Chi-cago, where, after running a bill of \$500 at the Richelieu and selling her wife's jewels, he calmly deserted her, even car-rying off her silver purse of change. Mr. Cushing has taken the heartbroken girl home, and an investigation—all too late—has disclosed the fact that Williams' statements as to his business and stand-ing were false.—Boston Courier.

Trying to Clear Up a War Record.

Colonel A. C. Hamlin of Bangor, Me., is anxious to find a member of the Sev-enty-fifth Pennsylvania who was on picket south of the Dowdall tavern, at Chancellorsville, Va., May 2, 1863, and find out how the balance of the regiment escaped after Madsdorf was captured. He thinks by the Hazel Grove field, Colonel Hamlin is earnestly laboring to secure justice to the Eleventh corps at Chancellorsville, and to protest against the treatment of the German soldiers by the war department and congress and some officers of the Army of the Potomac. He asserts that a large part of the stampede described at Chancellorsville was of the Third and Twelfth corps, and thinks he can prove it.

His Last Journey.

Among the passengers on the express train No. 97, from Salzburg to Ghent, was a dead dog, which had a saloon car-rage all to itself. Four servants in liv-ery were deputed by their mistress, the Princess of Arenberg, to escort the pre-cious remains to their last resting place on her estate. The interior of the saloon was suitably decorated, and its hire came to about 600 marks. We have not as yet ascertained the cost of the mausoleum which is to be erected in memory of the dear departed.—Frankfurt Kleinze Presse.

Alaska Has Just Heard From Him.

A counterfeiter in the east is send-ing his circulars to a few people in Juneau, offering them great inducements; etc. He states his "green goods" are printed from genuine government plates that were stolen from the department, and that detection of his notes is impossible even by experts. Let his stuff alone and avoid trouble.—Juneau City Mining Record.

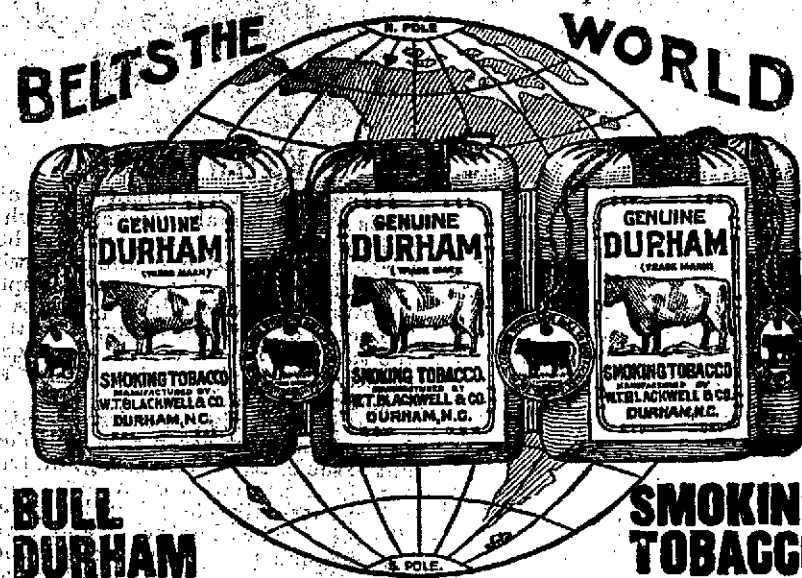

A Great Slaughter of Lizards.

Five hundred thousand lizard skins were shipped from the state of Tabasco, Mexico, to the United States last year. Thousands of the skins are marketed in Mexico, while large quantities are ex-ported to Europe. It is estimated that the number of lizards slaughtered for their skins in the state of Tabasco last year was \$,000,000.—Exchange.

A Larderon Suggestion.

May not the fact that nearly 1,000 more murders were committed last year than during the year preceding be in some way connected with the unwholesome publicity given to two or three tragedies that might be named.—Boston Commu-nwealth.

Honesty is the Best Policy.

HOW MANY deaths have been the result of treating with unscrupulous demagogues.

How many deaths have been caused by the use of poison (morphine, acconite, strychnine, belladonna, etc.)

In how many cases has death been hastened by the use of mineral (mercury, iron, zinc, chloral).

In how many cases have men and women been ruined for life by the use of the ever ready knife, at the hands of a so-called Specialist.

How many people there are who go from doctor to doctor and from hospital to hospital, suffering from a compli-cation of diseases, and being treated for first one thing and then another, and never realizing the least benefit. Never in any case having received anything but a com-bination of mineral poison, and as a consequence, ac-celerated misery and distress.

To such the discovery of a doctor who understands his or her case, who applies a common sense treatment and relieves the sufferer from pain and distress by Nature's remedies, is like a flash of heavenly light from a dark and overcast sky.

Cleanliness is Next to Godliness.

Disease means a deposit of irritating dirt. Chronic disease a deposit of accumulated dirt. Wash the system as you would the most delicate piece of soiled lace. By the aid of vegetables, tonics and botanic treatment and a cure is effected.

If you have been abusing yourself for years by being irregular in your habits of living, eating, drinking and sleeping, over-indulgence in tobacco or liquor, we will rectify your whole system and make you natural and healthy.

A sound body makes a clean mind. Take advantage of our prescribe. Consultation free to all. Our charges for treatment are peculiarly moderate. The poor treated free of charge.

A. A. CHISHOLM, M. D.

Parlor 8, Occidental Hotel.

D. CHISHOLM treats chronic and private diseases, with success, by using made a specialty of the hands of them for years. Ladies and gentlemen both are invited to take advantage of the Doctor's visit. Consultation free and confidential. Are your eyes a reddish color, your skin yellow and discolored, general debility, backache and neuralgia, are you a nervous, irritable, and avoid premature de-bility, loss of vitality and energy. Are your nerves all weakable in form and give constitution of strength and vitality. Call on us early and be benefited.

THE REFORM CLUB'S TARIFF BILL.

The New York Reform Club has modestly assumed the task of framing a tariff law for the United States. A committee, consisting of E. Ellery Anderson, Charles S. Fairchild, Thomas G. Sherran, David A. Wells, John D. Warder and Everett P. Wheeler, appointed by the club, has completed a draft of a bill which, when perfected, will be submitted to Congress as a substitute for the tariff laws now in force. The bill has been submitted to the Club for suggestions and criticism. It will be presented to Secretary Carlisle for his information and guidance in formulating the Administration scheme for reforming the tariff.

The general principles upon which the bill has been framed are to make crude materials to be used in the process of manufacturing, free of duty, and to fix such rates on other articles as will produce the largest amount of revenue consistent with large importations. This purpose is limited, however, by consideration of the welfare and necessities of the people at large.

All duties are made strictly ad valorem, except those which are levied as compensatory for internal revenue taxes upon similar articles produced in the United States. Experience has shown, the committee states, that duties cannot be raised above 25 per cent. without offering dangerous incentives to smuggling, and few articles of luxury may be exempted from the operation of these general rules. All foreign articles, which if made here, would be subject to internal revenue taxes, must, of course, be subject to at least an equal tax, but as to liquors and tobacco, the duties upon them should be made with a view to obtaining the greatest possible amount of revenue, without any concern as to whether we give or withhold protection to American producers.

Raw silk is to be free of duty, but in deference to the popular opinion that manufactured silk is a luxury, it is to be taxed 20 per cent. of its value. Crude metals, not merely ores, but pig iron, ingots and bars, with the exception of iron and steel, are put on the free list. Tin plates are to be taxed 15 or 20 per cent., but provisions, except what may be considered luxuries, are to be admitted free. The duty upon woollens and worsted manufactures of every description is 25 per cent. of their value.

The committee say it would be exceedingly desirable to have no specific free list, but have everything free which is not expressly subjected to duty, and suggest that a tax of about half a cent per pound be made on raw sugar.

The Tariff Reform Club favors a tariff for revenue as against a tariff to create trusts, but if, as General Hancock said, the tariff is a local issue, conditions may exist in many parts of the country of which the Club, which is a local organization, may be utterly ignorant. Here, therefore, tariff laws have been compromise measures, Congressmen from the various sections of the Union making the best terms possible for the industries of their respective districts. The McKinley bill, when introduced in the House of Representatives, put a duty of two cents per pound upon sugar and a duty of one dollar each on hides. The Committee on Ways and Means put sugar on the free list, but in deference to the maple sugar manufacturers of Vermont, gave a bounty of two cents per pound to home producers of the article. Senators Edmunds and Morrill of Vermont declaring that they would defeat the bill unless the bounty clause was incorporated in the bill. The boot and shoe manufacturers of Massachusetts rebelled against the taxation of hides and declared that they would not support the Republican party unless hides were admitted free. So it will probably be when the tariff question again comes before Congress. Senators and Representatives will look out for the interests of the localities they represent, and doubtless materially change the schedule of the Reform Club bill, even though it should receive the approval of Secretary Carlisle and the Administration.

OFFICE-SEEKING CAUSED BY DULL TIMES.

The National Watchman says Washington is filled to overflowing with office-seekers. Never before has there been such a wild scramble for office. Every State and seemingly every voting precinct is represented, and the cry is "still they come." Such actions prove conclusively the business stagnation and distress that prevails throughout the entire Nation. Men are here from distant sections, bending all their energies to obtain a position that will pay a salary of \$1,200 to \$1,500 who twenty years ago were earning twice or three times that sum in a pleasant business at home. Now all business is uncertain and unremunerative, and a safe income, though small, is preferred.

The President does not want a demagogic politician for Commissioner of the Pension Bureau and is looking for a man who will conduct the office on purely business principles, and in that he is undoubtedly right.

Matthew P. Deary, Judge of the United States District Court of Oregon, died yesterday. He had been on the Bench about 40 years as a State and Federal Judge.

TELEGRAPHIC NEWS

Matters of Interest From Home and Abroad.

A CHAPTER OF STORMS.

Considerable Property Destroyed by a Cyclone.

NO MONEY OR WORK FOR THEM.

Disastrous Storm.

LOUISVILLE, March 24.—A heavy storm which passed over a large section of the South last night did great damage at Bowling Green and the surrounding country. The storm was in the nature of a cyclone at Bowling Green. Roofs of 15 or 20 houses were blown off. The most serious damage was to the Louisville & Nashville road house. The storm struck the building, tearing off the roof and leveling the brick walls with the ground. The falling material did serious damage to engines inside. An unfortunate colored man was unable to make his escape and was caught in the debris and badly, though not seriously, injured. The loss on the building and locomotives is from \$75,000 to \$100,000.

Among the roofs blown off at Bowling Green was that of the Warren county court house.

Passengers on the delayed fast express on the Louisville & Nashville from the south stated that all along the route evidence of the storm could be seen. Many farm houses were noticed to be roofless and scores of stables and out-houses are totally demolished. Trees were blown across the track at many points, but section men managed by hard work to keep the track clear for regular trains.

The town of Bowling Green is almost destroyed. The postoffice building was swept entirely away, loss, \$41,000. The storehouse occupied by Stephens & Knox was demolished and the stock, valued at \$5,000, was ruined by rain. Isaac Hamilton lost several tenement houses and storerooms, besides having his residence badly damaged. The Shelton House was unroofed as was other buildings near by.

Every house in Stanford was damaged. J. W. Flower's residence, one mile from town, was unroofed. J. H. Hitt's house was blown down, and the Dunderer mill, two miles away, was damaged.

At Murray there lay 20 residences and 50 stables and barns demolished. Only one person, Miss Alice Stablesfield, was seriously injured, though dozens were slightly hurt. The loss will reach \$25,000. Much timber, fencing, etc., was also destroyed.

No Protracted Fight in the Senate.

WASHINGTON, March 24.—The indications at present do not point to a protracted fight in the Senate over a reorganization of the executive officers. There appears to be no desire to enter into any lengthy debate that will prolong the present extra session beyond the time when the President will have notified the Senate that he has no further communications to make, and certain well-known Senators say they intend to leave the city, regardless of the fact whether there is a reorganization or not.

The Republicans say they will inist upon a strict following of precedents, and it looks as if they would be able to force the Democrats to hold off until the commencement of the regular session.

Vance, Chairman of the Committee on Privileges and Elections, who is preparing the majority report on the case of the Senators appointed by the Governors of Montana, Washington and Wyoming will finish it to-morrow. It will not be long, but will present reasons why the majority of the committee do not believe the certificates of these Governors sufficient authority upon which to seat the Senators in question.

Hoar, who prepared the minority report favoring seating the Senators, has completed the work. Probably both reports will be printed and will be laid upon the Senators' desks when the Senate convenes Monday. In that event the debate relative to these cases may be precipitated immediately.

Weather Forecast.

SAN FRANCISCO, March 24.—The forecast for Nevada is fair except occasional light rain or snow in the northern portion, slight change in temperature.

Perfect Baby Health

ought to mean glowing health throughout childhood, and robust health in the years to come. When we see in children tendencies to weakness, we know they are missing the life of food taken. This loss is overcome by

Scott's Emulsion

of Cod Liver Oil, with Hypophosphites, a fat-food that builds up appetite and produces flesh at a rate that appears magical. Almost as palatable as milk.

Mines Sold for \$40,000.

SAN FRANCISCO, March 24.—J. K. Patton, one of the discoverers of the Vanderbilt gold mines, San Bernardino county, who, with his partners, R. O. Hall and J. P. Taggart, lately sold the Gold Bar and Gold Bar Extension mines to John W. Mackay, James Flood and W. D. Lyle of this city, has come up to get the money for the mine and it has been paid over to him and Mr. Hall since their arrival. The amount for which the Gold Bar and its extension were sold was \$40,000.

Messrs. Flood and Mackay received word yesterday that the new shaft which was being sunk had made a new strike of two feet of rich gold in white quartz. Twenty-five men are at work in the mine.

The main ledge is from one foot to 25 feet wide. Lots of ore has been shipped and there is a lot now out for shipment.

A Case of Necessity.

WASHINGTON, March 24.—Seldom has a more persistent and earnest pressure been brought to bear than that which Secretary Carlisle has been subjected to within the past few days since he was obliged to cut down the force of clerks in his department. Senators, Representatives and other men of influence implored him to reinstate this one or that.

Carlisle so far, however, has not yielded to any of these importunities. He remarked to one who desired the retention of a clerk: "My dear sir, it is not a matter of choice on my part, but a case of necessity. I not only have no money with which to pay these employees, but I have no work for them to do."

Of Great Benefit to Farmers.

YUMA, A. T., March 24.—The heavy rainfall during the week throughout Arizona has been of great benefit to stockmen and farmers. All streams and arroyos are running banks full. The Gila river, in the upper valley, has risen nine feet. Salt river is reported to have risen seven feet and is still rising. The Colorado river two feet and is rising at the rate of an inch an hour.

There are no fears of a flood or a grand overflow, although the Colorado bids fair to be a big river for at least the next five months to come.

Delegates Will be Sent.

WASHINGTON, March 24.—"I know they are going to reassemble. The President is favorable to that," said Senator Teller of Colorado this morning when asked just as he had come from a short talk with Cleveland, as to what news there was with regard to the International Monetary Conference. Subsequently Senator Teller had an extended interview with Secretary Carlisle in regard to the Conference, and was told by the Secretary that it was definitely settled that the United States would send delegates. It is likely that the old delegates would be requested to serve.

A Woman's Body Found.

UTAH, Cal., March 24.—The remains of Mrs. Carter, a former resident of this city, were found submerged in a land slide three miles from Round Valley yesterday. A traveler on one of the mountain trails discovered a human foot protruding from the earth. Assistance was summoned and the remains of Mrs. Carter were uncovered. She was found head downward near the body of her horse.

DIED.

BARINI—Nyar Steamboat, Washoe county, Nev., March 25, 1893. Antonio Barini, aged 54 years. Funeral at Washoe to-day at 12 o'clock.

GIBBONS—In Reno, Nev., March 25, 1893. Mrs. Oliver Gibbons, mother of John Gibbons, a native of Canada, aged 85 years.

AT HAND

In a dangerous emergency, AYER'S Cherry Pectoral is prompt to act and sure to cure. A dose taken on the first symptoms of Croup or Bronchitis, checks further progress of these complaints. It softens the phlegm, soothes the inflamed membrane, and induces sleep. As a remedy for colds, coughs, loss of voice, la grippe, pneumonia, and even consumption, in its early stages,

AYER'S Cherry Pectoral

excels all similar preparations. It is endorsed by leading physicians, is agreeable to the taste, does not interfere with digestion, and needs to be taken usually in small doses. "From repeated tests in my own family, Ayer's Cherry Pectoral has proved itself a very efficient remedy for colds, coughs, and the various disorders of the throat and lungs."—A. W. Bartlett, Pittsfield, N. H.

"For the last 25 years I have been taking Ayer's Cherry Pectoral for lung troubles, and am assured that its use has

saved my life. I have recommended it to hundreds. I find the most effective way of taking this medicine is in small and frequent doses."—T. M. Matthews, P. M., Sherman, Ohio.

"My wife suffered from a cold; nothing helped her but Ayer's Cherry Pectoral which effected a cure."—R. Amers, Plympton, N. S.

Ayer's Cherry Pectoral

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass. Prompt to act, sure to cure

NEW TO-DAY.

ASSESSMENT NOTICE.

SOUTH SIDE DRAIN DITCH COMPANY.—Location of ditch, Washoe county, Nevada. Principal place of business, Reno, Nevada. Notice is hereby given that at a meeting of the Board of Trustees of the above-named company, held on the 24th day of March, 1893, an assessment (No. 11) of ten cents (10c) per share was levied on each and every share of the capital stock of the company, represented by each and every acre of land situated by said ditch, payable immediately in United States gold coin to John B. Williams, Secretary and Treasurer of the company in the Court House, Reno, Nevada. Any stock upon which this assessment shall remain unpaid on Saturday, the 29th day of April, 1893, shall be deemed delinquent, and such proceedings may be necessary will be had against the land situated by said ditch, and against the owner, to collect such delinquent assessment, together with the costs and expenses.

By order of the Board of Trustees. JOHN B. WILLIAMS, Secretary. Reno, March 25, 1893.

Pastorale. First class pastorage for stock at \$1 per head per month on the Alexander ranch. Inquire at the bridge stable. mh24w

DIXON BROTHERS, WHOLESALE AND RETAIL BUTCHERS.

Fresh Beef, Pork, Mutton, Veal and Sausage Constantly on Hand.

HAM, BACON AND DRIED BEEF. Shop—Corner Commercial Row and Sierra street. A full line of the public patronage solicited. mh24w

KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative, effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from any objectionable substance.

Syrup of Figs is for sale by all druggists in 50c and \$1 bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

FIFTY-CENT COLUMN.

All classes of legitimate advertisements not exceeding six lines, inserted in this column at 50 Cents per Week.

Furnished Rooms.

Nearly furnished rooms, quietly located and at a reasonable price for rent. Quiet neighborhood. Enquire of Mrs. Garces, northeast corner of Fourth and West streets. mh24w

Viavi Company.

Home office, Van Ness Avenue and Vallejo street, San Francisco; Reno office at Miss L. F. Sheldon's, two doors above the Journal office. mh24w

Edison's Phonograph.

Call and listen to Edison's greatest invention, the Phonograph at the Golden Eagle saloon, only five cents a piece. mh24w

Wanted.

A good gentleman roomer for nicely furnished bedroom, convenient to business portion of town. Apply at once to the Journal office. mh24w

Easter Novelties.

Ladies, take notice of the opening of Easter novelties at Miss Sheldon's studio, two doors west of the Journal office, Monday, March 27th. mh24w

To Invalids.

Good remedies are kept at the Madame McCabe Corset Parlor. The price is within the reach of all. Mothers and daughters in ill health should visit and become well. Second door north of McKinstry's Opera House, Sierra street. mh24w

For Sale.

Combination Fence.

Manufacture, Trunk Street near 9th St. street, Reno. The cheapest and best lawn, garden and orchard fence made. It is portable and made in bundles of from fifty feet to seven rods. Orders solicited. mh24w

For Sale.

Trees, plants and shrubs by the million, at the Reno and Mt. Hope Nurseries, Reno, Nevada. mh24w

French Laundry.

Corner of Second and Center streets. First-class washing and lace curtains a specialty. Orders will receive prompt attention. Satisfaction guaranteed. mh24w

Pigs for Sale.

Twenty head of pigs for sale, weight from 25 to 50 pounds. Inquire at Iron Bridge Stable. mh24w

Fittman System.

Many systems have been invented and tried and then discarded as worthless; others are being recommended daily which will certainly have the same fate, therefore those who expect to earn their livelihood by following the Fittman system as a business should be careful to start right, with a correct system (Fittman) and remember that the shortest line is not always the most direct way home and that there are "rules" in this world which are very deceptive and therefore will always be misleading. Look ahead before you leap. Text books for sale, Reno School of Shortland, Virginia St., between 4th and 6th Sts. mh24w

Hudson Chickens.

Last season's brood, at \$15 per trio on board cars at Winnemucca. They are pure blood, large and healthy. Apply to A. D. WILCOX, mh24w

A Rare Chance.

For sale at a bargain, one of the finest finished and most conveniently arranged houses in Reno. Situated in the new building Addition, one of the most popular residence portions of the city. Can be purchased much below its real value by applying immediately to T. P. Bradshaw & Co., Virginia street. fe24w

Found.

A cold scarf pin was found last Saturday on Sierra street, near Fourth. The owner can have the same by calling at J. Cohn's tailor shop on Virginia street, identifying property and paying charges. fe24w

Cheap Flour.

Snow Flake Superior Flour 25 cents a sack, \$1.00 per hundred pounds, at R. G. Wills' Cash Store. fe24w

Oscar Hildebrandt.

The piano tuner is now residing permanently in Reno, and will receive a limited number of piano pupils. Leave orders at G. J. Brookins, or address Oscar Hildebrandt by mail. fe24w

J. Westlake.

Is now prepared to make boots and shoes cheaper than ever before. Call and see his improved manner of manufacturing. Repairing done at short notice. Shop on north side of Virginia St., opposite the bridge stable. mh24w

Ayer's Sarsaparilla is unequalled as a cure for female disorders.

First-class pasturage for stock, cheap. See ad in another column.

Crochery and glassware at San Francisco prices at Lange & Schmitt's.

Dr. Joseph Henderson of Elko arrived here yesterday on his way to Carson.

The public schools will have a week's vacation beginning with Monday next.

Dr. Porter extracts teeth without pain. Office, Steele building, Commercial Row.

The new steamer for Honey Lake was loaded on the cars at Truckee on Tuesday last.

Our county data are being complimented for the good work they are doing on our streets.

Ex-Senator W. C. Grimes and County Treasurer Sanford of Churchill visited Reno yesterday.

The Orange social at the M. E. Church last evening was a very enjoyable affair and well attended.

Sol Levy, who has been in San Francisco for some days returned home, yesterday morning.

The assessment notice of the South Side Drain Ditch Company, will be found in another column.

Do not forget that Company C will give one of their enjoyable socials at the Pavilion this evening.

Ladies' attention! For immediate relief use Moseley's French Female Pills. Sold by McCullough.

Senator Harris of Tennessee has been elected President pro tem of the Senate without opposition.

The agreeable flavor of Ayer's Cherry Peppermint makes it easy to administer to children. Its great merits confirm its popularity.

N. H. A. Mason shipped a carload of draft horses to San Francisco yesterday. They were brought here by rail from Mason Valley.

Rev. Erasmus Van Doorninck announces his intention of resigning the pastorate of Trinity Church. He will remain Principal of Whittaker Hall.

To make the hair grow a natural color, prevent baldness, and keep the scalp healthy, Hall's Hair Renewer was invented, and has proved itself successful.

It is announced in a dispatch from London that in consequence of the continued illness of her husband Mrs. J. W. Mackay will sail for New York to-day.

Henry Morris now has three chairs in his parlour and each is presided over by an artist. Customers therefore do not tire waiting for their turn. m21t

Mr. and Mrs. George Drexler arrived home yesterday morning from San Francisco, where Mrs. Drexler has been under medical treatment and considered cured.

Dr. Patterson, having declined the position of a member of the State Board of Health tendered him by the Governor, Dr. J. A. Lewis of Reno has been appointed in his stead.

The Transcript says: "Ed Black one of Nevada City's popular young men, who is Nevada operator at Floriston, arrived here on Saturday evening and is being warmly welcomed by his hosts of friends."

A French doctor is given as authority for the statement that lemon juice used as a gargle is a specific against diphtheria as well as other throat diseases. He has successfully employed this treatment for 18 years.

"Mines and Mills" is the title of a new weekly periodical published at Salt Lake. It is devoted to mining and kindred industries and contains much valuable information on extracting and reducing ores. The subscription price is \$3 a year; single copies, 10 cents.

South California clubs are being organized in San Diego for the purpose of creating a sentiment in favor of dividing the State of California. A meeting to emphasize the demand for division is to be held at a time and place to be determined by those favoring the movement.

While passing a fish stall yesterday where some founders were on exhibition one of our citizens was heard to ask the clerk why the fish were split in two. There may not be much of interest in the above paragraph but it shows there are some tonorial artists who are not experts on the fish question.

William and Lem Jones, two brothers, engaged in mining on Olney creek, six miles from Hedding, Cal., while making a clean-up of their placer diggings, found two lumps of gold weighing \$500 and \$200 respectively, besides getting about \$300 in smaller pieces and dust. Their find has created considerable excitement.

According to the report of the Interstate Commerce Commission there are 1,735 railroad corporations in the United States, 43 of which own nearly one-half of the track mileage. There were 4,800 miles of railroad built in 1891, yet the number of railroad companies decreased, 92 of them having been absorbed by other companies.

The Silver State says: G. W. Sumnerfield has purchased for the Baden slaughtering establishment Jerry Hearn's, John Vance's and F. P. Snapp's best steers. They will be shipped from Winnemucca next Monday. About all the beef cattle left in the country, except some at Lovelock, is a lot of 500 owned by O. North of the Clover Valley Land & Stock Company.

WEATHER FORECASTS.

Remarkable April Weather Predicted—
Moscow Record and Geologic History.

Copyrighted 1893 by W. T. Foster.
St. Joseph, Mo., March 24, 1893.

My last bulletin gave forecasts of a storm wave to cross the continent from the 24th to the 28th, and the next will reach the Pacific coast about the 29th, cross the Western mountains by the close of the 29th, the great central valleys from March 30th to April 1st, and the Eastern States about April 2d.

This storm will become very severe about the 31st in the great central valleys, probably about the time it is crossing the Mississippi river.

Remarkable weather in many respects will occur in April. The cool waves will cross the western mountains about March 31st, the great central valleys about April 1st, and the Eastern States about April 4th.

With the usual fluctuations in temperature the average temperature will rapidly increase until about the 23d in the far west, the 24th in the Middle States, and the 25th in the Eastern States. Where there are heavy snows on the ground, about the 1st of April there will be danger of very high waters, as the thaw will move northward very rapidly.

In the northern latitudes and in the Rocky mountains heavy rains will begin about the middle of April. Not general rains but of the cloud-burst variety and this, with the melting snow, will cause high waters on the head waters of the Missouri, Mississippi and other northern water courses.

A DAY OF REST.

Following the Moscow record we find, "Let the waters under the Heaven be gathered," etc. Why say under if not to express the idea that another body of water hung over the earth? At the time referred to in the Moscow record the sun had existed for millions of years, but had not been seen on earth since the advent of the moon-comet. Geology and Moscovite declare that grass, herbs and fruit had grown on the earth long before the sun appeared to its inhabitants. The Moscow record gives an account of light during the first day or period, but the lesser and greater luminaries did not appear till the close of the fourth period.

Take the geologic history which tells us of the gigantic ferns that grew during the carboniferous age and it declares that no fierce sunlight and sun-heat penetrated to the earth, and yet we know that a warm and moist climate was necessary to the immense vegetable growth of that period. All this constitutes wonderful harmonies with the Moscovite record and declares that during the first, second and third days, or periods, of the Moscovite record there existed a diffused light but no sun was seen. There was a space of light called day and a space of darkness called night. The moon was not known in that period. It had probably not then receded enough from the earth to place it above the dense cloud belts and taking the belts of other planets as we now see them as a basis for our reasoning, the earth's cloud belts must have been 25,000 feet deep and therefore the moon was completely hidden from the light of the sun and the eyes of the earth's inhabitants. I believe the dark spot on Jupiter to be a moon immersed in Jupiter's cloud belts. That moon revolves around Jupiter in about ten hours and this has misled astronomers to suppose that the great planet Saturn revolves on its axis in about two hours. I do not believe that Jupiter revolves on his axis in less than ten of our days.

AN AGE OF QUIETUDE.

In the fourth period of the Moscovite record the moon was known to exist. It had then receded from the earth so far that it was above the cloud belts and therefore was designated as one of the lights in the fourth period. The words, sun and moon are not found in the Moscovite record till after the deluge. Before the deluge they were known as lighters. They illuminated the heaven or expanse which in turn gave light on the earth. There is no evidence in the Moscovite record that the sun and moon appeared as they do now before the flood, but there is unmistakable evidence that stars did appear and this, too, is in accord with the law.

The cloud belts would decline and clear away at the poles of the earth, or in the northern or southern polar regions before they would cover or near the earth's equator. Under the cloud belt conditions of the earth, light and heat would more generally extend to all parts of the earth, but would have most effect near the earth's equator and there, in that garden of Eden lived the greater portion of our ancestors. The stars could be seen far to the north or south, but as the sun and moon were more nearly over the earth's equator, they would not come into view till the belts had cleared away.

The Moscovite record says there was an upper deep or fund of water, and to say that the sun and moon were visible at the same time would be a contradiction, and therefore the record does not make the statement.

When the moon had receded from the earth and was above the cloud belts, the vapors had risen near the equator and fallen near the poles, there was a universal greenhouse age all around the earth near the equator, an age of universal quietude, of rest. The great storms caused by the nearness of the moon to the earth had ceased. Where man dwelt it was a rainless age and vegetation was watered only by the dews.

That was the seventh day; the day of rest for all nature, the Edenic age, and the geologic record is even more emphatic in its evidence on this point than are the statements found in Genesis.

A Reward Offered.

Parties have been in the habit of late of meddling with and injuring Marcus Fredrick's triplex whenever the owner appears to leave it unprotected on the sidewalk.

Mr. Fredrick offers a reward of \$10 for positive proof of any person found injuring his wheel.

NEW LAWS.

To Provide for the Admission of Certain Persons Into the Nevada State Insane Asylum.

Approved February 27, 1893.
SECTION 2. It shall be the duty of the District Judge in each Judicial District of the State, upon the application of any person under oath that any person within said district who has been a bona fide resident of the State for more than five years and of the county wherein he is at the time residing for one full year preceding the making of said application, to cause such person to be brought before him at such time and such place as he may direct, and the said Judge shall also cause to appear at such time and place such witnesses as he may deem proper and one or more licensed practicing physicians. Said physicians shall proceed to examine the person and the witnesses so brought before said Judge, the witnesses to be placed under oath, and if said physicians, after careful examination, shall certify upon oath that the charge is correct, giving their reasons therefor, and if the District Judge is satisfied that such person is an idiot or a feeble-minded person and is incompetent to provide for his or her own proper care or support, and has no property applicable for such purpose, and no kindred in the degree of husband or wife, father or mother, child, brother or sister living within this State of sufficient means or ability to provide properly for such care and support, and is further satisfied that it will be for the best interest of said indigent and of the county of which he is at the time a resident, he shall cause him to be conveyed to the Insane Asylum of this State at the expense of the county of which said person was a bona fide resident during the period of one year next preceding the making of said application, and placed in charge of the proper person having charge of said Asylum, together with a copy of the complaint, commitment and physicians' certificate, which shall be in such form as the Board of Commissioners for the Care of the Indigent Inmate of the State of Nevada may prescribe.

SEC. 3. The county of which any person committed to said Asylum, under the provisions of section one of this Act, was a bona fide resident during all of the year next preceding the making of application for his or her commitment, shall pay into the Treasury of the State of Nevada, quarterly, on the first Monday of January, April, July and October, from and after such commitment, the actual expense of maintaining and keeping such person at said Asylum, for which said county shall be liable to the State of Nevada, the amount payable to the State of Nevada, the amount of said expenses to be certified to the Board of Commissioners of said county by the Superintendent of said Insane Asylum.

SEC. 4. All former Acts, insofar as they are in conflict with or repugnant to the provisions of this Act, are hereby repealed.

Election of Warden of the State Prison.

Approved March 6, 1893.

SECTION 2. Section 4 of said Act is hereby amended so as to read as follows:

Section four. On the third Wednesday in January, A. D. 1895, the Board of State Prison Commissioners shall elect a Warden of the State Prison. The Warden so elected shall take charge of the same on the first day of February following his election, and shall hold office until his successor is elected and qualified. He shall be subject, at all times, to the order and direction of said Board of State Prison Commissioners. The Warden shall be the chief executive officer of the Prison, at a salary of \$2,000 per annum, and shall reside at the Prison.

BREVITIES.

Kamysse—The finest remedy for indigestion, and a pleasant beverage, can be obtained in pint siphon bottles at McCullough's Drug Store.

Senator Comins of White Pine arrived yesterday homeward bound from San Francisco. His daughter, Miss Minnie, remained over here to visit friends.

The President is said to be unalterably opposed to nepotism. He says neither close nor distant relatives of his shall get office. He sharply criticised the action of a Senator, supposed to be Jones of Arkansas, for putting his son in as clerk of his committee, and said the public service demanded efficiency, not consanguinity.

Wife selling seems to be a regular business in parts of Pennsylvania. A man named Judson, a resident of Irwin, sold his wife, a bonum young woman, to John Vodka for \$30. Judson claims that the amount is dear profit to him as a friend in the coke region presented the wife to him, and stated that he can buy as many as he wants at \$10 apiece.

A person who has had experience in the poultry business says water should be given to young chicks in a manner to permit only the beaks entering the drinking vessel. Dampness is fatal to chicks. If a chick becomes wet, in any manner whatever, it will die unless it is immediately dried, and even then, if it recovers, it will have received a check in growth that will always be noticeable compared with others.

Hog raising promises to be the best paying business in which a farmer can engage. The statistics of the Department of Agriculture reports a decrease of over 1,000,000 head in the stock of live hogs in Great Britain, and the shortage in Ireland is estimated at 1,200,000 head. Bacon and pork are abnormally high as compared with the prices of other meats, and the opinion prevails that they will continue so for some time.

Saturday Night Dance.

Company C, M. N. G., will give another of their pleasant socials at the Pavilion Saturday evening next. The previous ones given, although not largely attended, were pleasant affairs, and so far as respectability is concerned, no one need hesitate on that account for greatest care is exercised to the said that none but ladies and gentlemen are admitted. If you wish to enjoy yourself attend the soiree.

Highest of all in Leavening Power.—Latest U. S. Gov't Report.

Royal Baking Powder

ABSOLUTELY PURE

ELECTRIC LIGHT AND POWER.

Water to Supplement Coal for Fuel in the Near Future.

The time is approaching when nearly every available waterfall and every run of rapids on the rivers of the United States will be utilized as generators of electric power. The mechanical force thus derivable is equal to many times the needs of the whole country, and thus far has been turned to very little account. Only within the last twenty years has the way been practically and economically pointed to utilization, but at present an enormous amount of the devices of the inventor and engineer, that no bar stands across the path of progress. From the natural sources of cataraacts and rapids the electric engineer can carry to cities all the light and power they require. It is a power transmissible hundreds of miles almost with the facility of a telegraph message, and with as much safety, provided due precautions are taken. Distribution of the force to the manufacturer who needs a 1,000 horse-power is as just as facile as to the producer who has a few sewing machines and lathes, and requires a supply of only from one to five horse-power. We shall soon see in California an application of the flow of river water to the production of electrical energy on a considerable scale, from 20,000 to 30,000 horse-power being developed above Fresno, but that is only one comparatively small resource. The watershed of the Sierra cannot, in this respect, be measured by less than hundreds of thousands of horse power, and within ascertained limits this enormous force is available at great distances to operate machinery. Properly utilized, it would in a great measure compensate for the lack of coal.

By electrical energy obtained in this manner, machinery can be driven much more economically than by steam power due to the consumption of fuel.

Proprietors of land through which a river passes will assert their riparian rights. The owner of barren and bleak mountain slopes who has a waterfall of 50 or 100 feet in height, with a good volume of water, has a more valuable property than his land or the timber on it. It may be more than a very rich gold mine or a coal field to him. There in the tumbling water is power going to waste, and with a moderate expenditure and the laying of wires to towns perhaps 200 miles distant, he may sell the power to begin manufacturing, or if they have made a start, to abandon steam power as too costly.

The control of such water privileges when found, as many of them will be, on United States land, may yet become an important question of Government policy.

—San Francisco Bulletin.

Nevada at the World's Fair.

James Yerington, of the World's Fair Commission, arrived on the Comstock to-day to secure if possible mineral exhibits from the various mining properties. Mr. Yerington is buying himself in visiting various parts of the State with the view of making a creditable exhibit. It is his desire that visitors to the Fair shall be surprised at the abundance of resources of Nevada. The gentleman has already secured beautiful specimens of wire silver, borax, soda and other products from Esmeralda, gypsum, antimony, sulphur, iron and other things from eastern counties, cotton and citrus fruits from Lincoln, and from other sections various choice agricultural products. Mr. Yerington is indefatigable in the work, and as the time is limited, energy must be displayed. All exhibits must be shipped by the 15th of April. Mr. Yerington will leave to-morrow night for Eureka and the eastern part of the State.—Virginia Chronicle.

For Over Fifty Years.

Mrs. Winslow's Soothing Syrup has been used millions of mothers for their children's white teeth.

It cures colic and soothes the nerves of a sick child suffering and crying with pain of cutting teeth, and at once gets a bottle of "Mrs. Winslow's Soothing Syrup" for children.

It will relieve the poor little sufferer immediately. Depend upon it, no mother here is so mistaken about it. It cures Diarrhoea, regulates the stomach, and soothes the bowels, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup is the children's best friend. It is sold by all druggists throughout the world. Be sure and get "Mrs. Winslow's Soothing Syrup."

For fine boots and shoes go to H. F. Pavola.

The grand triumphal arch begun by Napoleon is 147 by 75 feet at its base and rises to a height of 193 feet. The central archway is 95 feet high and 48 feet wide. The inner walls are inscribed with the names of 584 generals and 98 victories.—St. Louis Globe-Democrat.
